

## One Tear

One tear falls gently down my cheek  
Heralding the end to this madness  
The sun radiates her ever present beams  
On the midnight of my mind

One tear falls gently down my cheek  
Cleansing my very soul of desire  
Rising out of the burning ashes  
All that remains of white hot passion

One tear falls gently down my cheek  
Dark clouds yield to my lonely passage  
Safely stowing my restless heart  
The end of a journey traveled alone.
